

From Users to Co-Designers: Youth Participation in Understanding Cyberbullying

Kanishk Verma¹, Tijana Milosevic², Rebecca Umbach³, Brian Davis¹

March 18, 2025

Appendix A

A : Requirement Gathering

Table A.1: Table indicating Platform-Type and associated Features

Platform-Type	Feature	Platforms
Social networking & Content sharing	Stories	Instagram
	Reels (Short-videos)	TikTok
	Disappearing messages	Snapchat
	Comments	Facebook
Messaging	Group-chats	WhatsApp Discord
Video Streaming	Video-Content	YouTube
	Video-comments	Twitch
Discussion Forums	Threads	Reddit
		ASK.fm
		4Chan
Micro-blogging	Tweets	X (previously Twitter)

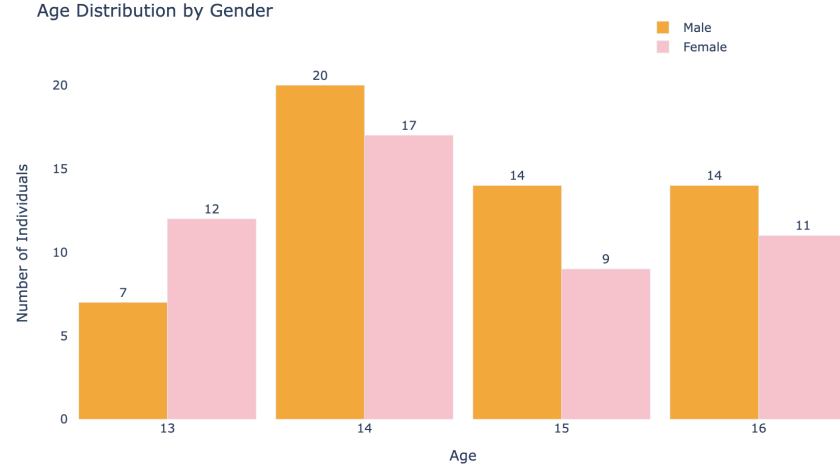

Figure A.1: Age Distribution for Requirement Gathering Survey (Phase-1)

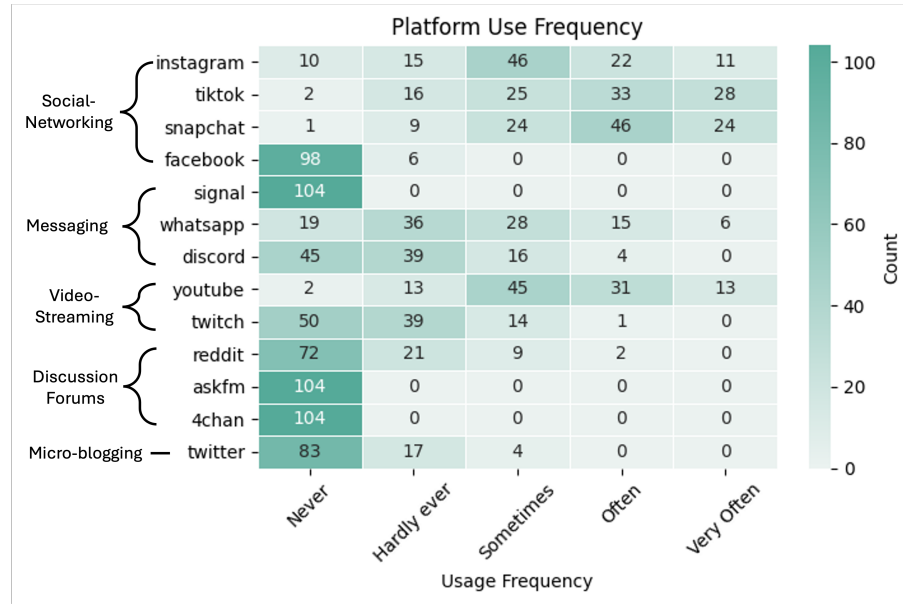

Figure A.2: Platform Usage Frequency for Requirement Gathering Survey (Phase-1)

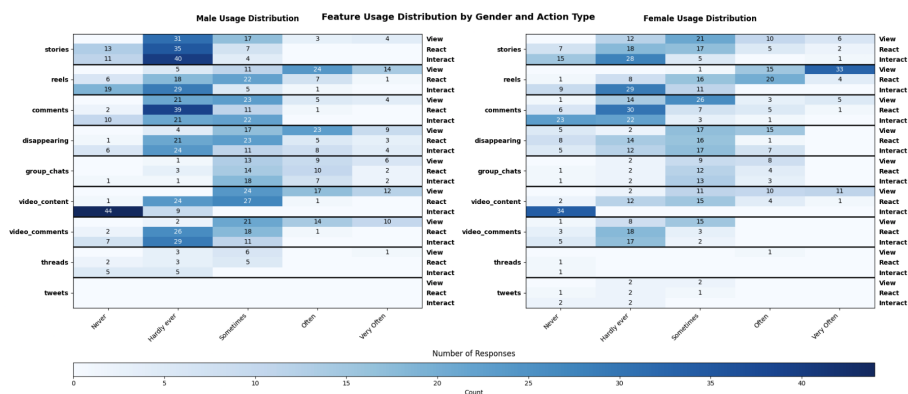

Figure A.3: Feature Usage by Engagement Style across Genders

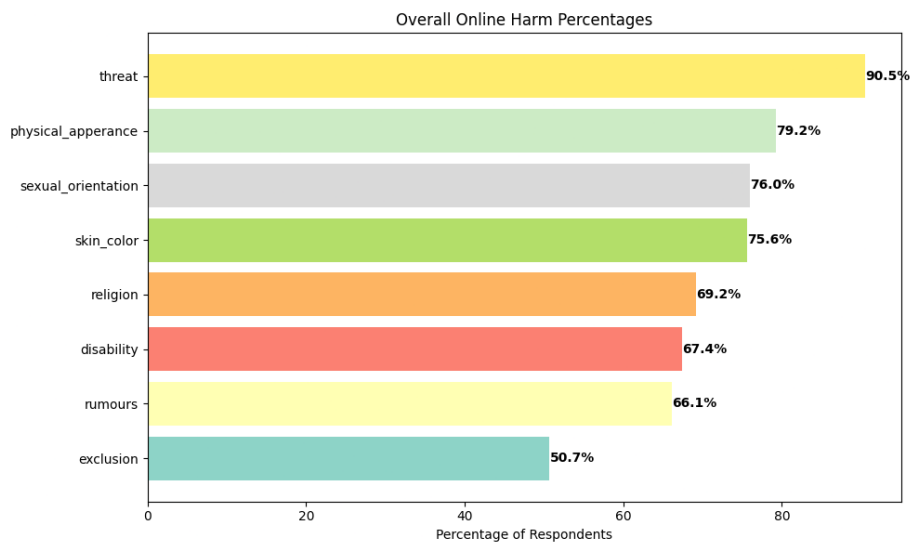

Figure A.4: Percentage breakdown of Online Harms across all features collected via Requirement Gathering Phase-1

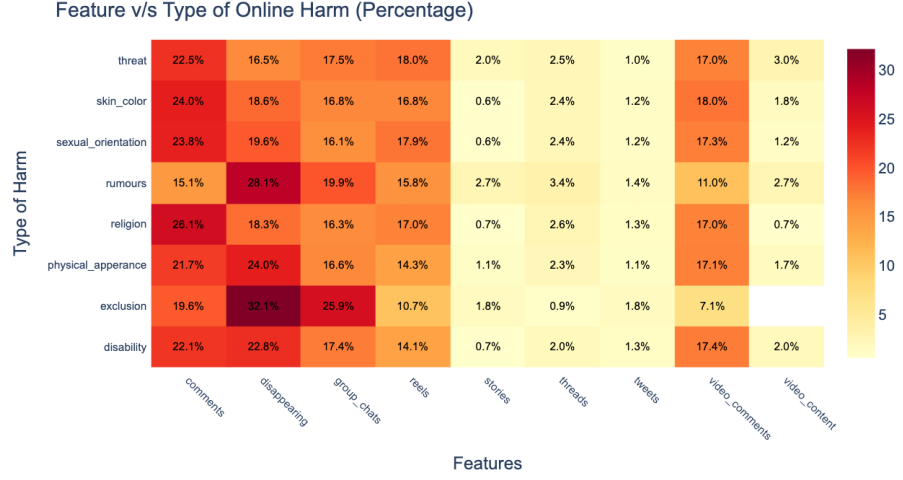

Figure A.5: Type of Online Harms associated with Features collected via Requirement Gathering Phase-1

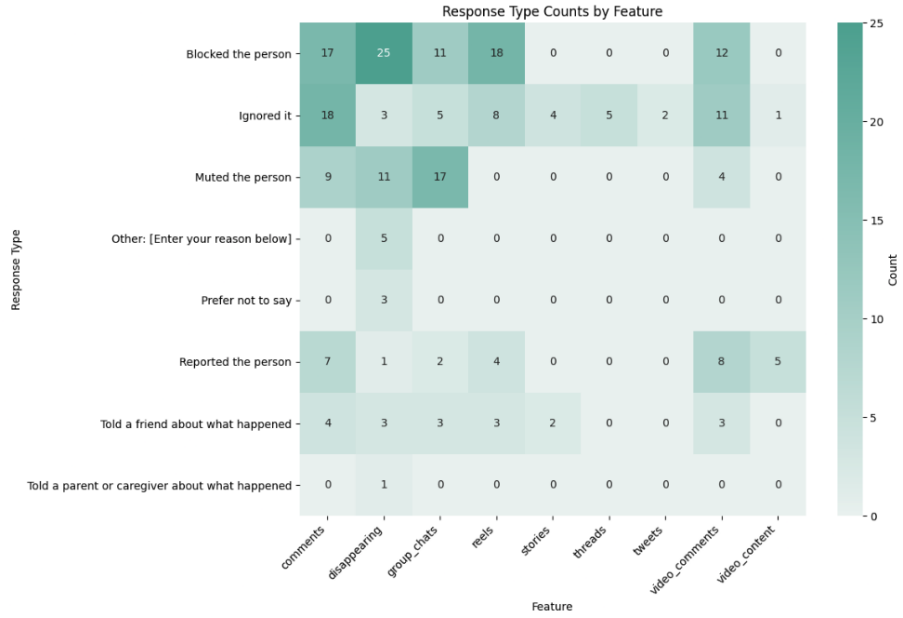

Figure A.6: Response Type associated with different social media features collected via Requirement Gathering Phase-1

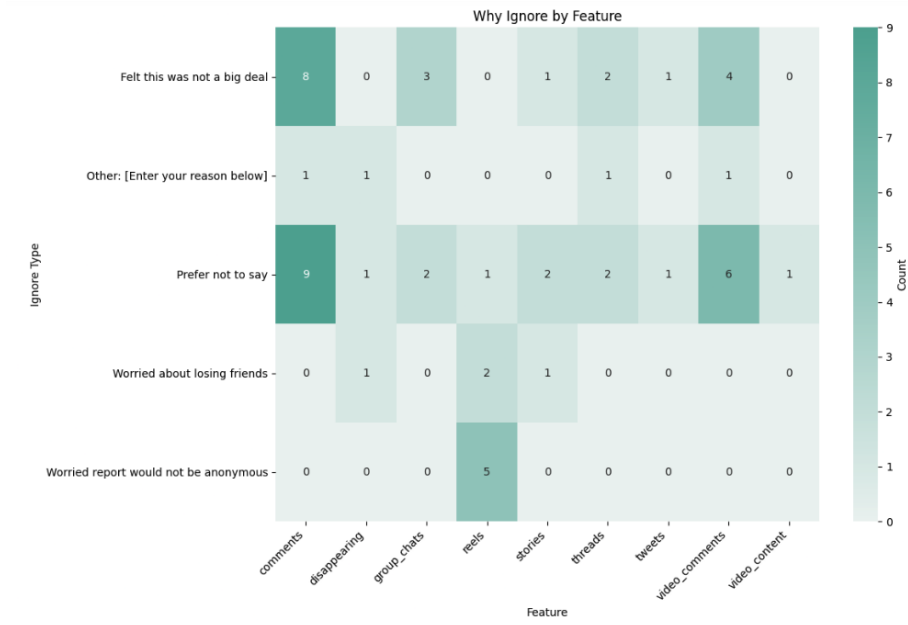

Figure A.7: Why would they ignore reporting as per different social media features collected via Requirement Gathering Phase-1

Table A.2: Simplified Feature Usage by Gender with Important Values Highlighted

Gender	Feature	Rarely (%) <i>Never+Hardly</i>	Frequently (%) <i>Often+V. Often</i>	Association <i>OR (p-value)</i>
Male	Reels	9.26	70.37	2.62 (0.135)
	Video Content	0.00	54.72	0.00 (1.000)
	Video Comments	4.26	51.07	6.80 (0.012)
	Group Chats	3.45	51.72	2.33 (0.370)
	Disappearing	7.55	60.38	5.02 (0.001)
	Threads	30.00	10.00	0.00 (1.000)
	Comments	39.62	16.98	12.11 (0.010)
	Stories	56.36	12.72	0.00 (1.000)
Female	Share Video Content	100.00	0.00	—
	Reels	0.00	97.96	2.62 (0.135)
	Video Content	5.88	61.76	0.00 (1.000)
	Stories	24.49	32.65	0.00 (1.000)
	Comments	30.61	16.32	12.11 (0.010)
	Disappearing	17.95	38.46	5.02 (0.001)
	Video Comments	37.50	0.00	6.80 (0.012)
	Group Chats	10.53	42.11	2.33 (0.370)
	React to Reels	18.37	48.98	—
	Share Video Content	100.00	0.00	—

Table A.3: Fisher’s Exact Test Results for association - Feature Engagement Style v/s Viewing Nasty or Hurtful Content p-value and Odds Ratio as per feature engagement

Appendix B

B : High-level and Detailed Design

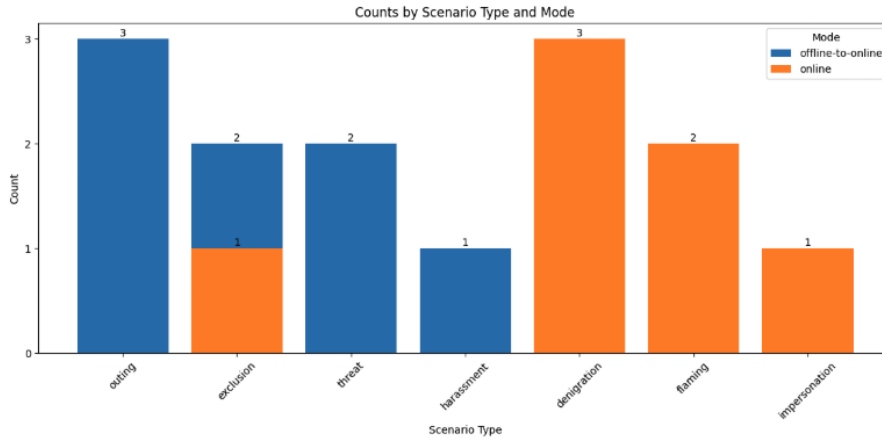

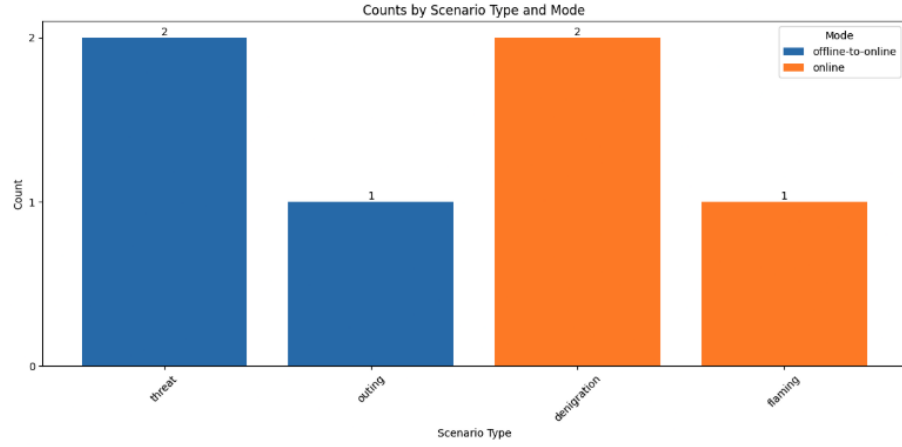

Figure B.1: Scenario count used in surveys for Cohort₁ by type and mode

Perception-1	Perception-2	p-value	Odds Ratio
Serious	Real	1.0000	0.8693
Real	Report	0.4361	1.3653
Serious	Report	0.0001	5.9353

Table B.1: Fisher’s Exact Test Results for Cohort 1

B.0.1 List of Scenarios from Existing Literature

Figure B.2: Scenario count used in surveys for Cohort₂ by type and mode

Perception-1	Perception-2	p-value	Odds Ratio
Serious	Real	0.0331	4.7159
Real	Report	0.2287	1.9740
Serious	Report	0.0003	17.0909

Table B.2: Fisher’s Exact Test Results for Cohort 2

Table B.4: Cyberbullying Scenarios Compilation

Author	Type of Harm	Scenario Mode	Cohorts	Scenario Text
Ashktorab, Z et al 2016 [?]	Threat	Offline-to-Online	1 and 2	Tom and Jake had an argument recently and things have escalated online. Jake keeps tweeting threatening posts saying how he’s going to ”beat the crap” out of Tom. Things get even worse when Jake starts tweeting where Tom normally is during certain times of day. These messages are repetitive and Tom is afraid he could be ambushed at any time
Campbell, M et al 2022 [?]	Threat	Offline-to-Online	1 and 2	Jenny filmed a group of girls bashing up on Wendy and posted it on YouTube. Her friends snickered and laughed when she came to school the next day.

Table B.4 – continued from previous page

Author	Type of Harm	Scenario Mode	Cohorts	Scenario Text
Ollagnier et al 2022 [?]	Outing	Offline-to-Online	1	Zoe is overweight. After gym class, Marjorie and Lucie, who are jealous of her good school results, take a picture of her in a posture that highlights her extra pounds. They broadcast it to the whole class with mean comments. Natacha, a friend of Zoé tries to defend her. She is helped by Pauline who also has a few extra pounds and is Marjorie's friend. Julien, who was obese when he was younger, tries to intervene with Marjorie and Lucie as well as Zoé to put an end to the situation.
Ollagnier et al 2022 [?]	Outing	Offline-to-Online	1	Sophie and Lucas have been together for a few months and go to the same school. During a school trip, taking advantage of the absence of his girlfriend (stayed at home with the flu), Lucas secretly kisses Silvia, a classmate of Sophie. Sophie learns of Lucas' betrayal from her friend Adrien, who witnessed the scene. With his help and that of Lisa, she starts insulting Silvia on the Whatsapp chat. Axelle and Soan decide to defend Silvia on the chat, blaming Lucas; Michel joins them in defending Silvia. Herbert, a friend of both Sophie and Silvia, intervenes to stop the harassment between Sophie and Silvia.

Table B.4 – continued from previous page

Author	Type of Harm	Scenario Mode	Cohorts	Scenario Text
Ollagnier et al 2022 [?]	Outing	Offline-to-Online	1 and 2	Fatima is new to the class and is very pretty. During a school trip to the seaside, she goes swimming with her classmates. Among them are Pauline (jealous of Fatima), Teresa, Julie and Théo, the best friends of Pauline and Fatima. Pauline takes a picture of Fatima and shares it with the whole class, making fun of her because she has dark skin. Pierre and Nicolas add to it by making unpleasant comments about the Arabs. Teresa and Julie defend Fatima and Theo tries to put an end to the incident.
Camelford, K et al 2016 [?]	Denigration	Online	1 and 2	Victoria, a girl in your friend group, sends a group photo text with a meme of Jessica, an unpopular girl from your school after she tripped and fell with the caption, "Oh You Want to Be Friends With Us. It's Not Going to Happen." Other friends respond with "LOL" and "What a loser."
Ashktorab, Z et al 2016 [?]	Denigration	Online	1 and 2	Sara is a new girl at school who dresses differently than the other kids. She is quiet and introverted so she has had trouble finding friends. Another kid at school starts taking pictures of Sara and posting them on a group on Facebook, "Sara's weird outfits". The page has over 1000 likes and people start to comment on the strange clothing Sara wears to school. The comments seem to keep getting more malicious and personal. Recently, someone wrote: "She's so ugly and her style sucks. She needs to die."

Table B.4 – continued from previous page

Author	Type of Harm	Scenario Mode	Cohorts	Scenario Text
Ollagnier et al 2022 [?]	Denigration	Online	1	Paul is gay. He confided in his friend Ellian on his Facebook account. Contrary to Paul's expectations, Ellian reacted aggressively and spread the message to the whole class with homophobic comments. Arthur and Nicolas make fun of him with Ellian and insult him by claiming that he is sick and possibly contagious and that you should not approach him. Lisa and Camille defend it by arguing that everyone can be different and that we must respect it. Jimmy friend of Ellian and Paul intervenes trying to explain to Ellian the consequences of his attitude and to Paul that if Ellian reacts like that, it's because he doesn't know how to handle the news that surprised him.
Ashktorab, Z et al 2016 [?]	Exclusion	Online	1	Jenny, Kayla, Sara and Felicia are all very good friends and have lunch together at school daily. Recently, however, Jenny has been avoiding Felicia. Jenny begins posting multiple pictures on Instagram in which she crops out Felicia and only tags Kayla and Sara. Felicia is feeling sad about how Jenny is excluding her and does not know how to react. She does not know if it was something that she did to make Jenny feel and act this way.

Table B.4 – continued from previous page

Author	Type of Harm	Scenario Mode	Cohorts	Scenario Text
Campbell, M et al 2022 [?]	Exclusion	Offline-to-Online	1	Rosalyn is in a class for 'gifted kids' – it is called the 'Ignite class'. Other kids call her a nerd, ignore her, and deliberately leave her out of group activities, and this has been going on all year. This makes Rosalyn very sad.
Huang, C et al 2020 [?]	Exclusion	Offline-to-Online	1	Max is a class leader. He and his classmates use an instant messaging app to communicate about school matters. Recently, Ada made a mistake and missed an important group project. To prevent new problems from cropping up unexpectedly, Max asked other classmates to keep her out of all discussions related to school affairs.
Ashktorab, Z et al 2016 [?]	Flaming	Online	1 and 2	Kyle keeps receiving repeated snapchats from Tom and Jake calling her names. They update their public stories with video messages of themselves saying "Kyle is ugly" or "Kyle needs to die." These videos are sometimes coupled with captions. Tom and Jake also send direct snapchats to Kyle
Campbell, M et al 2022 [?]	Flaming	Online	1	Some girls created a "We hate Penny" website where they posted jokes, cartoons and gossip and rumours, all putting down Penny. They made fun of her clothes and wrote how stupid and ugly she was.
Huang, C et al 2020 [?]	Harassment	Offline-to-Online	1	Sonia and Debbie often hang out together. Recently, Sonia asked Debbie to do her a favour, but Debbie refused. Sonia thought Debbie was not a good friend. Therefore, she repeatedly sent messages to insult her as an emotional catharsis.

Author	Type of Harm	Scenario Mode	Cohorts	Scenario Text
Camelford, K et al 2016 [?]	Impersonation	Online	1	Kallie, your friend, comes to you in tears because she found out that someone is impersonating her Twitter account. Her username is @kallie2000 and someone cleverly substituted two numerical "1" instead of the letter "l," so the impersonating username is @ka11ie2000. Kallie confides in you and tells you not to tell anyone.

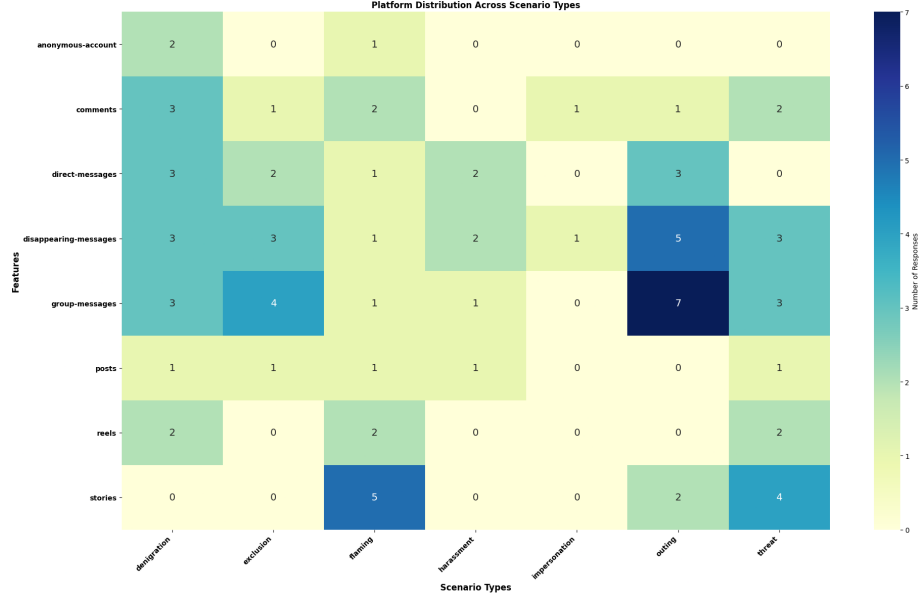

Figure B.3: Possible new social media features adapted for specific Scenario by Cohort₁

Perception 1	Perception 2	p-value	Odds Ratio
Serious	Real	0.0761	3.2946
Real	Report	0.0167	2.8718
Serious	Report	0.0003	9.6727
